***Election/Restrictions***

1. Applicant's election of Group I in the reply filed on 03/27/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

***Information Disclosure Statement***

2. The information disclosure statement filed 12/02/04 has been considered and made of record. A copy of the 1449 initialed, dated and signed by the Examiner is included herewith.

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Claim Objections***

4. Claims 1-5, 15 and 20 are objected to because of the following informalities: \*\*\*

- a) claim 1, line 7, the word "cooper" should be --copper--;
- b) claim 1, line 8, the word "valued" should be --value--; and
- c) claim 2, line 3, the word "plan" should be --plane--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-5, 7 and 9-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of the independent claims, the phrase "said bottom layer is configured as such that functional groups are generated on said plastic film substrate through plasma processing using mixture gas containing nitrogen, thereby forming metal made of copper or an alloy containing primarily copper, and then said metal and atoms constituting said plastic film substrate are chemically bonded" is unclear, rendering these claims indefinite. It is unclear how the "metal made of copper or an alloy containing primarily copper" is formed reaction of the substrate. Clarification is requested.

In claim 11, the term "the irregular face" (penultimate line), lacks antecedent basis, thereby rendering this claim indefinite.

Claim 20 contains the trademark/trade name Teflon. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a good and, accordingly, the identification/description is indefinite.

Additionally, claim 20 contains improper Markush language, rendering this claim indefinite.
